## WORK EXPERIENCE

---

**Jr. PHP Developer at Leadoptics**

April 2024 - July 2024

- Worked on various PHP-based projects, enhancing functionality and performance.
- Collaborated with a team of developers to implement and maintain web applications.

## PROJECTS

---

**Portfolio WebApp -**

[Website](#)

- Built a portfolio website using ReactJS, featuring full responsiveness across all devices, secure login/logout functionality using 'Auth0', and a functional contact form. The app includes a blog section that dynamically shows blogs from the backend.
- Users can see all of my projects in this application.
- **Technologies used:** ReactJS, Styled Components, Tailwind CSS, SCSS, EmailJS.

**Portfolio Dashboard -**

[Backend dashboard](#)

- Developed a dynamic backend dashboard to manage blog content and all information shown in my Portfolio WebApp. The dashboard allows customization of site content and blog entries, which are then dynamically displayed on the portfolio web app.
- **Technologies used:** MongoDB, Express.js, Node.js, ReactJS.

## ABOUT ME

---

I'm a web developer who's truly passionate about crafting beautiful and intuitive websites. I specialize in front-end development, using tools like ReactJS, Tailwind CSS, and Bootstrap to bring designs to life. I have strong skills in the MERN stack, PHP, CodeIgniter4, and MySQL. I'm excited to lend my expertise to innovative projects and continue growing professionally. To know more about me, visit my [portfolio](#).
